The 19th Patricia Neal Rehabilitation Center Brain Injury Symposium is designed to provide information as it relates to acquired brain injury assessment, treatment, and research to assist in educating individuals who may be impacted as a survivor, family member, healthcare professional, and the general community at large. Acquired Brain Injury is growing and being treated in the

rehabilitation arena often accounting for 35% of the brain injury population in the region. The focus of this year's workshop is on the many issues seen with acquired brain injuries also known as non-traumatic brain injuries as it relates to assessment, treatment of issues that arise from brain injury, and outcomes that are research based.

Agenda:
